## HUNTING & FISHING

River Bend WMA offers a bounty of deer, hog, waterfowl, and small game hunting opportunities for adults, children, and handicapped hunters.

Formed by a clear-water spring that flows up at the swamp's edge, Troup's Spring Lake provides ample stock of bass, bream, and other game fish. A paved boat-ramp allows easy access to the pond, as well as hiking trail access to Pugh's Creek, which features pristine creek fishing conditions.

Oconee River

Board Walk

## CAMPING & HIKING

The South Tract offers 1,700 acres of naturally flat to extremely rugged walking trails extending throughout remote coastal plain swamp.

The North Tract features an area for primitive camping, a station with handicapped accessible restrooms with showers, picnic tables, grills, and a covered pavilion. Explore the trails by bike and foot for ample photographic opportunities.
